- PHOTOSHOP
- ILLUSTRATOR
- FIGJAM
- FIGAM

DEVELOPING SKILLS

- HTML AND CSS
- BOOTSTRAP
- JAVASCRIPT
- REACT JS
- WORDPRESS

LANGUAGE

- English
- Telugu

PROFILE

Passionate UI/UX Developer and Designer with expertise in front-end development, web design, and user experience. Proficient in HTML, CSS, JavaScript, and tools like Figma, Adobe XD, and Sketch. Skilled at turning user needs into intuitive, visually appealing designs. Committed to continuous learning and enhancing user experiences.

PROJECTS

HTML AND CSS(https://sirisha2704.github.io/hotel-/)

A hotel website using HTML and CSS features a homepage, room details, amenities, contact info, and a booking form. HTML structures the content, while CSS styles the site for a clean, responsive design. It includes sections like navigation, room descriptions, high-quality images, and a contact form to enhance user experience and facilitate bookings.

JAVASCRIPT(https://sirisha2704.github.io/jswork/)

I've developed websites using JavaScript for banking, shopping, and API integration, with features like account management, product browsing, and real-time data display. JavaScript enhances interactivity and user experience across all platforms.

REACT JS(https://sirisha2704.github.io/react9445/)

I have developed a bakery website using React JS, featuring product listings, a shopping cart, and an order form. React's component-based structure ensures a dynamic, responsive user experience, making it easy to browse products and place orders.

PORTFOLIO (https://sirisha2704.github.io/ports/)

I have created a portfolio website using HTML, CSS, and JavaScript, showcasing my skills, projects, and accomplishments. The site includes a clean, responsive design with interactive elements, making it easy for users to navigate and explore my work.

CERTIFICATES

- CERTIFED IN UI/UX DEVELOPER AT
TECH Mahindra SMART Academy,VISAKHAPATNAM
